

Take the Sagicor Accelewriting® Challenge! Quick. Easy. Simple.

Compare Sagicor to your current “accelerated” underwriting carriers — they actually may not be that accelerated!

Does your current accelerated underwriting carrier require a **tele-interview**?

With Sagicor’s Accelewriting® program, you’re able to **maintain control** without handing the process over to a tele-interview. That’s right!

At Sagicor, there is NEVER a tele-interview!

Is your current accelerated underwriting process still **invasive**? Have applications at other carriers been **flagged** and sent through to the **full underwriting process**?

Sagicor’s process is **less invasive** as we work hard to **avoid blood and urine**, from Rated underwriting classes up to Preferred Plus¹. If your client is a Standard underwriting class, instead of pivoting immediately to full underwriting, Sagicor will try to **process** your application **with just an APS**, keeping the process less intrusive to your client.

Is the process **REALLY** accelerated? What’s the **turnaround time**?

With Sagicor, you have the opportunity to receive an underwriting decision within minutes at point of sale from Rated to Preferred Plus¹ underwriting classes, including Tobacco. Our competition can take days to do the same.

Do product² and accelerated underwriting **age restrictions** limit you?

Sagicor’s Accelewriting® age limit is **65**.

Accelewriting® with Sagikor is as easy as 1 - 2 - 3!

Quick Tips for a Smooth Accelewriting® Process

- 1. Check for typos.** Typos are the **#1 reason** why applications get RTU.
- 2. Ensure identification accuracy.** If the SSN, address and driver's license are valid and correct, you're good to go and will move right through ID Verify!
- 3. Account for medical and personal history.** Make sure all history is disclosed and accurate.
