Questions?

Contact the Producer Resource Center at **888-724-4267, ext. 4680**, or **PRC@SagikorLifeUSA.com**.

* No Medical Exam for Qualified Applicants: All applicants must answer application health questions and undergo automated underwriting review. Depending on health answers, electronic report results, age, and amount of insurance applied for, an applicant may not receive an immediate decision, and a review of more information and/or a medical exam may be required to determine eligibility.

iGO[®] eApplication Process and Instructions for Submission

When you quote Sagikor's Sage Term product on iPipeline, click on the APPLY button to take you to the iGO[®] eApplication for application submission. You can complete and sign the eApplication electronically via:

- **Tablet** – you and the client can sign directly on the tablet with your finger.
- **Laptop/desktop computer** – you and the client type your signatures electronically.
- **Over the telephone** – you will email the client an authorization, for which they will type their signature electronically, which will automatically send an email to you for authorization to submit the eApplication to Sagikor.

Don't forget to choose eDelivery to expedite policy delivery and policy settlement; a copy of the policy will be sent to you and the client.

When the eApplication is submitted to Sagikor, you will receive an email with three (3) potential options:

1. An underwriting decision, with offers up to preferred plus, or;
2. Referred to underwriting (you will receive an email from Sagikor's underwriting department within 48 hours, if you have any questions, contact underwriting@sagicorlifeusa.com), or;
3. Decline.

Tips for Submission:

- You will need the insured's SSN and ID number (i.e., driver's license number) to submit the eApplication.
- Always include the insured's physician name and contact info on the eApplication, to ensure the best underwriting offer possible.
- Please run the term quote based on the payment mode (annual, semi-annual, quarterly, or monthly) that will be sold. The payment mode from the quote pre-fills the iGO[®] eApplication and cannot be changed when you're in the iGO[®] eApplication. If you want to change the payment mode once you are in the iGO[®] eApplication, you will have to go back and re-run the quote and complete a new iGO[®] eApplication.
- A client can only make their initial premium payment with credit card if quarterly, semi-annual or annual payment modes are chosen. Maximum initial premium of \$2,500.

Once the policy is approved with an underwriting offer, the policy will be issued within 24-48 hours. If eDelivery was chosen, the policy will be eDelivered to you and the client after it has been issued. If EFT was chosen for the payment method, the EFT will be drafted, and the policy will be placed in force when the client electronically signs off on the eDelivery acceptance. If quarterly, semi-annual or annual payment options were chosen, the client can pay with their credit card via eDelivery only, up to a maximum of a \$2,500 premium.

AND — Sagikor pays commission daily upon policy settlement!

Paper applications are not available within Sagikor's Acelewriting[®] limits. Should you have any questions, please contact your upline or Sagikor's Producer Resource Center at **888-724-4267, ext. 4680**, or PRC@SagikorLifeUSA.com. Sagikor Life Insurance Company, Scottsdale, Arizona.
